Front End developer with 2+ years of experience. I spend the majority of my time developing landing pages and websites. I gained a lot of experience while building my startup, which drew small business owners to create their own websites. I want to gain more experience in this field and am looking for a company that will place me among their developers. In exchange for a significant amount of work and dedication.

## WORK EXPERIENCE

- |  |  |
|--|--|
| <b>Startup</b> (September 01, 2022 - Present)<br>Founder<br>Created a startup that successfully enticed small business owners to get their own website. This project has the potential to increase their target audience by 50% to 80%. According to current statistics, the majority of businesses are conducted online or can be accessed via the internet. This project makes use of languages such as JavaScript and Bootstrap.<br> <a href="https://pickygrinder.vercel.app">https://pickygrinder.vercel.app</a> | <b>Web Developer</b> (January 30, 2022 - Present)<br>Freelance<br>Developing and constructing solutions to a client's problem. Implement a scalable solution that allows existing projects to grow by at least 10%-30%. Working on a small to large project as part of a team or alone. Thirsty for knowledge and application. For over two years, I have applied my skills to a variety of professional projects. |
|--|--|

## EDUCATION

- |  |   |
|--|---|
| <b>Front End Developer</b><br>Udemy, Coursera, Free Code Camp, Scrimba, YouTube, Self Taught Programmer<br>I taught myself to code and earned certifications in a variety of courses. Community builder who talks about technology, has attended several meetings and seminars that help everyone build in technology. | <b>Electronics Communication Engineering</b><br>Bachelor, Science and Mathematics<br>Formal education at university taught me a lot about science, math, and circuits, which helped me gain more analytical and problem-solving skills. Assist me in putting my programming knowledge to use. |
|--|---|

## PROJECTS

- |  |   |
|--|---|
| <b>Translator</b><br>Java Script , Vanilla CSS<br>Websites that assist in translating a specific word into its equivalent word in another language. This project receives data using the fetch API and returns the related meaning based on the words. | <b>E-Restaurant</b><br>React , Vanilla CSS<br>Almost e-commerce website was build with accordance to quality UI/UX or User Interface and User Experience. |
| <b>Modern Bank</b><br>React, Vanilla CSS<br>Website that best describes modern payment and its benefits to the future.   | <b>Portfolio</b><br>React, JavaScript, Tailwind CSS<br>Compilation of all the projects that i made. Quality UI/UX for a portfolio.                        |
